Friehauf and Associates, Project Architect	1995
Milford Wayne Donaldson, FAIA, Project Architect	1988-1994
Bokal Kelly - Markham Architects, Intern	1986

Summary of Professional Experience:

Drew Hubbell's diverse background ranges from historic restoration to adaptive reuse of existing structures to custom residential design. His firm specializes in sustainable architecture, green building materials and the use of alternative building materials such as straw bales, insulated concrete forms, adobe, and sprayed concrete construction. He leads the firm Hubbell & Hubbell Architects LLC, and collaborates with his father—renowned artist James T. Hubbell—merging art and architecture in ecologically and aesthetically mindful ways.

Locally, Drew helped pioneer the use of alternative building materials in San Diego County, and has been a key figure in educating public agencies about their benefits, in order to gain acceptance and permits for these materials. Globally, Hubbell & Hubbell Architects is currently working on the design of a Gorilla Health Center in Uganda, Africa.

Drew's education includes the architectural program at the Danish Institute of Study, Copenhagen, Denmark. His extensive travel throughout Europe, Asia, and the United States allowed for an architectural survey of historic material and building techniques, providing him with a rich design vocabulary.

Drew is a member of Citizens Coordinate for Century 3, a nonpartisan, nonprofit organization of informed citizens who are interested in local and regional planning issues. He is a member of the American Institute of Architects (AIA)-Committee on the Environment, the Newschool Arts Foundation Board, and the Ilan-Lael Foundation Board. He has been a member of the US Green Building Council (USGBC) since 2003, and the California Straw Bale Association (CASBA) since 1997. Following the 2007 wildfires, Drew volunteered with Green-Spark.Org to assist and encourage homeowners to use sustainable and fire-resistant construction when rebuilding their homes. In 2010 he served as the sole juror for the San Diego Art Institute's July-Aug 2010 Regional Show.
